**AUTORISATION
NR. AB 057**

Authorization for the impregnation of pine and other easily impregnated softwoods in the Nordic wood protection class A according to NTR Document No. 1, Part 1. NTR impregnation class A is identical to Impregnation Class NP 5 in DS/EN 351-1.

- A. Designation: Pressure-treated wood for use in ground contact
- B. Applicant: **Frøslev Træ A/S**
Jens P.L. Petersens vej 1, Frøslev
6330 Padborg
- C. Facility: Same address
- D. Preservative: Wolmanit CX-8WB
- Approval Certificate: NTR nr. 191
- E. Process: Full impregnation
- F. Authorization: The company is, in accordance with NTR Document No. 3, Part 1, registered with the Danish Wood Preservation Control and authorized for the impregnation of pine (Pinus sp.) and other NTR-approved wood species.
- G. Remarks: The authorization may only be published in its entirety
- H. Validity: The authorization is valid until 2029-01-05
- I. Marking:  The company has the right and obligation to mark impregnated wood with the NTR mark.

If the company does not comply with the applicable requirements for the class, the authorization may be revoked immediately.
